SUMMARY

Information Technology student with hands-on experience in Python programming, backend development, and structured data handling through academic and personal projects. Familiar with logic-based systems and text processing. Currently building foundational knowledge in Machine Learning using Python.

SKILLS

- ❖ **Programming Languages:** Python (intermediate), Java (intermediate), C (basic), C++ (basic)
- ❖ **Web & Backend:** HTML5, CSS, JavaScript, Node.js, Express.js
- ❖ **Data & Tools:** Text processing (Python), Structured data handling, Git & GitHub, Canva

EDUCATION

- ❖ Information Technology | GHRCEM, Pune CGPA: 8.13 (As of June 2025)
- ❖ XII | Nutan Vidyalaya, Malkapur Year: 2023

ACADEMIC PROJECTS

Python-Based Resume Content Analysis and Builder System (March 2025 – Present)

Role: Python Developer (Personal Project)

- Developed a Python web application using Flask to analyze uploaded resumes and build resumes using form-based input.
- Implemented text processing logic to extract sections such as skills, education, and experience, and generate structured output.
- Applied keyword matching and rule-based evaluation to provide resume improvement suggestions.

WanderLust - Property Listing and Booking Web Application (Airbnb-Inspired) (January 2025 – Present)

Role: Full Stack Developer

- Built a full-stack web application inspired by Airbnb using Node.js, Express, and MongoDB.
- Implemented user authentication and authorization using Passport.js.
- Developed CRUD operations for property listings.

ACHIEVEMENTS / HOBBIES

- Microsoft Azure Fundamentals (AZ-900) – Coursework / Certification Preparation
- Poster Designer for college events using Canva.
- Experience working independently on structured, accuracy-focused technical tasks.
